Professor

FROM: James E. Thompson
Dean

RE: Appointment to Chair of Electrical and Computer Engineering

The purpose of this memorandum is to appoint you Chair of Electrical and Computer Engineering. This appointment is effective March 1 and extends for three years. An evaluation will be made during the third year to determine reappointment and leadership options for you and the department.

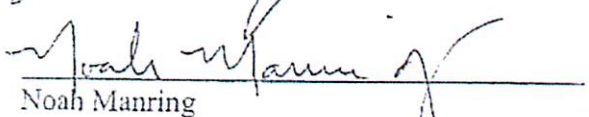

This is a 12-month administrative appointment. You will receive a 10% salary increase on your current 9 month base to \$125,929. Your total 12-month salary will be \$153,913 which is 11/9 of your new 9 month base and includes payment from the professorship endowment. You will continue to hold the Barton Professorship under the original terms of this appointment.

I am depending on you to work with me and the faculty to develop and implement departmental goals, to encourage a cooperative environment and to develop interdisciplinary programs with other departments and programs. Attached are areas for you and the faculty to address during this semester and in the future.

The Electrical and Computer Engineering Department is important to the College of Engineering and to MU. I appreciate your willingness to accept this position and responsibility to build an excellent and nationally recognized department.

James E. Thompson, Dean
